Money  
League

On January 11, 2010 a new and hopefully exciting handicapped, singles money league will start at The Other Woman @ 7200 Albemarle Rd., 704.537.1487.

- 1) The matches will be played at The Other Woman on Monday evenings, sign-up cut-off is 7:15 pm (no phone calls) and play will begin at 7:30 pm sharp. (If someone present at the bar signs you up and you are not physically there by the time your first match is called then your opponent can force a forfeit!!!)
- 2) The cost is \$5 upfront and \$5 each Monday (all money is to be paid prior to play) Money will be won each Monday (**50% of the nights purse + The Other Woman will kick in each Monday amount dependent on # of players**) and the remaining 50% will accumulate towards the 8-week payout.
- 3) Pool play will be best 2 of 3, first game will be handicapped '01, second game handicapped cricket, if third game is needed then flip a coin to decide game being played (heads='01 & tails=cricket). You earn points based on matches won, each match (**not game**) you win equals 1 point and those points earned will accumulate towards the overall 8-week payout.
- 4) Top 2, 3 or 4 players (depending on size of pools) will advance to a random draw single game knock-out tournament (flip a coin to decide each game played, heads='01 & tails=cricket). Ties within a pool will be broken by the head-to-head match. The matches won in the weekly knock-out tourney will not count towards the player's overall point total.
- 5) The handicapping, *similar to that of the current Tucker Cup tourney*, will be based on the current, borrowed QCDA ratings (this league is not affiliated with the QCDA, so your individual QCDA ratings will not be affected by playing here). Unfair ratings are subject to adjustment by the organizer of this league. This league and the QCDA league will overlap so during the overlaps players handicapping will fluctuate as their QCDA ratings change.
- 6) A player may come and go whenever they choose. Play whichever Monday's you feel like it! Obviously if you are interested at making a run at the 8-week payouts you should play as much as possible.
- 7) # of Monday night payout positions will be dependent on # of players present. # of 8-week payout positions will be dependent on # of players throughout the 8 weeks. Each week the # of players paid, money paid out prior week, players overall position and money collected will be available for review. (I don't want anyone to think I'm skimming money off the top!)

The Other Woman is interested in growing darts here in Charlotte so we are trying something a little different to see what happens. There will surely be some growing pains (things that work great things that don't) we will make adjustments as needed! There won't be any radical changes made during the 8-week sessions!!! Please come on out and join us whenever you can! Any ideas, praise, gripes, suggestions will always be welcome!!!
